 Just how easy is Python programming in ArcGIS Pro? You only need 7+2 commands for this tool!What should I do for my GIS project? Full Video
 Arcmap And Python Closing The
 Reading¶. We have already talked about Python Built-in Types and Operations, but there are more types that we did not speak about.One of these is the file() object which can be used to read or write files. Let's start off by downloading this data file, then launching IPython the directory where you have the file:*

Reading and Writing tabular ASCII data ...
