~~Global Economic History A Very~~

Global Economic History: A Very Short Introduction considers the wealth and economic history of countries worldwide. Why are some countries rich and others poor? The various factors that influence economic growth, including culture, globalization, institutions, technology, the natural environment, income distribution, and the standard of living are discussed.

have grown dramatically since Columbus reached America. In this Very Short Introduction, Robert C. Allen shows how the interplay of geography, globalization, technological change, and economic policy has determined the wealth and poverty of nations. Allen shows how the industrial revolution was Britain's path-breaking response to the challenge of globalization.
