“And then the day came when the risk to remain tight in a bud was more painful than the risk it took to blossom.” -Anaïs Nin. Today – January 26, 2021 – is a day of personal celebration for me because 6210 days or 204 months or 17 years ago, exactly to the day, I took a job on a tiny island (I started on January 26, 2004) that forever changed my life, both professionally and personally.

Psychology is the science of mind and behavior. Psychology includes the study of conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope. Psychologists seek an understanding of the emergent properties of brains, and all the variety of phenomena linked to those emergent properties, joining this way the broader neuro-scientific group of ...

Organizational secularization refers to the “modernization of religion” from within, namely the efforts made by religious organizations themselves to update their beliefs and practices to reflect changes in contemporary life. The move to ordinate female ministers to reflect the growing gender equality in society or the use of commercial ...
